

toddlers

Your child will graduate to the Toddler Rooms, usually at the age of around two.

friends

play areas

skills

training

Our Toddlers programme is designed to guide each child through his or her transition from sensory-motor world of Wobblers to an increasingly interactive and social world.

- In our Toddler Rooms, we introduce your child to more advanced equipment, arts and crafts, and a daily activity programme
- They will start to make lots of friends and will be encouraged to take an active role in group activities
- During this time we will work closely with you to toilet train your child, when you decide the time is right
- Your child's vocabulary will increase and they will soon be able to form simple sentences
- By the time your child is ready to leave the Toddler Rooms they will have developed a good level of comprehension and communication skills, they will be able to take on board larger amount of information, will be very curious and inquisitive and will have started to be able to formulate simple ideas
- Your Toddler will have access to a large indoor and out door play area, which has been designed to stimulate your child's curiosity, imagination, physical and sensory skills. We have trikes, bikes, outdoor play equipment, sand pits and a vegetable and flower patch where they can learn all about growing and nurturing.
